

Access mental well-being services from anywhere

With telehealth and virtual mental well-being programs, you have another way to get the help you need from providers that are part of your network. And whatever you're facing, you have the same support for counseling or medications for mental health concerns. You can see them where and when it's convenient — you choose. One telehealth/virtual session will cost the same as an in-person office visit.

Plan coverage terms may vary. Not all benefit plans cover these services. Prior to receiving services, confirm telehealth eligibility by checking your member website for plan details or calling the number on your ID card.
